

Nguyễn Khánh Khải Hoàn - Funix - Java Backend

Intern Nodejs

☎ 0396 826 333 ✉ khaihoancr7@gmail.com 🌐 <https://github.com/khaihoansqtt> 📍 Đại Quang, Đại Lộc, Quảng Nam

CAREER OBJECTIVE

Try hard to work, become Front-end Developer. Always improve my skills, try to learn more techniques, become a full-stack developer

SKILLS

Programming Language	Javascript, Java
-----------------------------	------------------

Back-end	NodeJs (Express), MongoDB, MySQL.
-----------------	-----------------------------------

Front-end	HTML, CSS (SCSS), Bootstrap, ReactJs, Responsive
------------------	--

English	Able to read and understand documents and communicate in English.
----------------	---

EXPERIENCE

Build a website to book a medical appointment

11/2022 - 02/2023

Web booking care

1. Link Github:

- Back-end: <https://github.com/khaihoansqtt/bookingcare-NodeJs>
- Front-end: <https://github.com/khaihoansqtt/bookingcare-ReactJs>

2. This is a project which I study by myself on the Internet.

3. Used Techniques:

- Back-end: NodeJs (Express), MySQL.
- Front-end: ReactJs with Redux, SASS, Bootstrap, other libraries...

4. The main functions:

- Login/ Logout (Authentication), use 'bcryptjs' library to hash password and save it in database.
- Display multi-language on the website, use 'react-intl' library to make this function.
- CRUD: Create records into the tables in database. Read data in the database (associate tables) to display on view. Update and delete records in database.
- Make the appointments for users (between doctors and patients).

Build a HTML, CSS page

08/2022 - 08/2022

Shopee clone

1. Link Github:

2. This is a project which I study by myself on the Internet.

3. Description:

- Basic HTML. CSS
- Responsive with grid-system, which I wrote CSS code in a file and use it as a library to responsive
